📁 Projects

Online Recruitment Testing Service [🔗](#)

ORTS is a website designed to provide a platform which is going to be designed for job seekers where they can create a strong profile for themselves. – it'll be a staggering platform where they can sly and exalt their performance.

- Where the world is residing on internet, then everything should be conveniently available on web. By keeping this concept in mind the whole platform is designed.
- To summarize, "ORTS" provides an easy, efficient and convenient placement process, getting rid of tedious offline systems

Personal Portfolio Website [🔗](#)

- A personal portfolio website was a digital showcase of my work skills, and achievements.
- It includes sections such as bio, education, work experience, skills and projects.
- The website serves as a tool to establish a professional brand, create an online presence and showcase skills to potential clients or employers.

Some Other Projects

- **Library Management System** - using Java, Swing and MySQL
- **Employee Management System** - using java and mysql
- **Car Rental System** - using VB6.0 and mysql
